Subject: Support letter for hOPE-RA project

Amsterdam, 21 December 2011

To Whom It May Concern,

We would like to show our support in Mathius Shadow-Sky's hOPE-RA project. Mathius showed his work at our festival Patterns + Pleasure in September 2011, and we were very impressed by his innovative approaches to composition and instrument design. As an institution dedicated to supporting artists with technology, we would gladly like to help Mathius realize his new project through providing technical and artistic consultation.

Since its foundation in 1969, STEIM has been internationally recognized as a leading center for live electronic arts. Our technical and artistic staff supports artists from around the world to help realize new ideas and further develop projects that involve creative use of technology. STEIM houses a sound studio, research lab and guesthouse within its facilities in Amsterdam.

Yours Sincerely,

Artistic Director, STEIM

Takuro Mizuta Lippit
